# Let'sSTEM
Learn, Play, Create !

Coding

Coding - Scratch, Swift apps, HTML5, CSS and Javascript and more

Classes in Ivanhoe VIC 3079; Events in schools around East Melbourne
Events and classes from May 2018 More venues to come…

What's in it for kids ? Key lifelong takeaways which can help enhance their creativity and a better future
- Driving curiosity and thinking creatively
- Breaking a problem and solving
- Developing new ways to express one's ideas and feelings

Free events in school showcasing how kids can quickly learn coding using latest world class technology.

Classes – per kid at $40 per class
- Group of about 5 kids in a class for collaboration and learning from each other
- Each class for a duration of 1.5 – 2 hrs (time less or more till kids are creative)
- From 1st class kids create small projects with a link showcasing for parents to be proud of

4 Levels – Kids from 8 -15 yrs learn step by step based on their interest while having fun !

Foundation
- Learn how to use a Mac, mouse, iPad
- Learning how to learn via games
- Make interactive Greeting Cards

Beginners
